question of principle-the evidently factious and revengeful feelings displayed by J. W. Forney and others of his prominent partizians in Pennsylvania and elsewhere, compel us to regard the movement of which he is the head as antagonistic to the purity of Democratic principle-destructive of Democratic organization,-calculated, if not designed, to jeopardize Democratic success.

That such will be the immediate effect in Pennsylvania, at the election to be held there on the 15th, we feel no sort of doubt; but, on the other hand, we feel as lit tle doubt of the reaction which will be certain to fol low before the great contest of 1860; and the force of that reaction will be in exact proportion to the firmness with which the Democracy adhere to their principles in the hour of temporary defeat. The Democracy has seen many a darker hour than this, and has come forth into the broad light of victory. All the difficulties in its path are nothing, compared with those surrounding the opposition, composed, as it must be, of the most discordant elements.

The course of Mr. Douglas, as well as the turn affairs have taken in other respects, seem to point to the selection of a Southern man as the candidate of the Democratic party at the next presidential election. We trust that the deliberations of the Charleston Convention may so eventuate. The Democrats of the South have time and again stood up manfully to Northern candidates; let us see now how the North will stand up to

The precise form the opposition may assume is more than we can say. Whatever the form may be, the substance will certainly be Northern and anti-slavery. We are satisfied that the Democracy should be neither Northern nor Southern, but constitutional.

The news from California comes like a wet blan ket upon the bolters. Bully Broderick, McKibben and their crowd are pretty effectually " crushed out "ground to powder-nowhere, in fact. Poor old Foote comes home from being a Know Nothing in California to ventilate his true Democracy by abusing Mr. Buchanan. He foretells great things in California, and great things do happen, but not the way the traitors meant, by considerable, if not more. Poor fellows, we feel for them, but we know it serves them right, and i may do them good, all but old Foote, and he's past redemption.

The "Me, I, Myself" tone of some politicians of the class to which we allude, is more than a little amusing. They have an idea that they can do what no man ever yet could do, successfully, and that is to array himself against a great party, a great principle, or a great measure founded upon principle. Why, when Mr. Benton himself, whose services had been those of a statesman I, Myself" feeling, the vanity of egotism and the worse folly of personal spite to control him, even he fell without power or influence-not forgotten, to be sure, for his talents, and the real power of his character forbade that but excluded from the Senate of which he was the Nestor, repudiated by the State he had represented for thirty-years, with little or no position in the Democratic party of which he had been one of the most trusted.

And yet Mr. Forney and Mr. Foote and Mr. Broderick, and such like, think that their little cock-boats can ride out the storm that wrecked the stately first-rate of the great Missourian. There was temper, egotism, anything you please, with Benton, but he was no trickster, no office-hunter. His aberrations were free from that taint. The present crop of disorganizers cannot hide their motives nor their feelings from the public, nor can the greater name of Stephen A. Douglas shield them or hide their defection.

The power of even the feeblest agency, when exerted in support of a good cause, cannot be lightly estimated -the vanity of even the most adroit managers, in seek- Boston was at Key West, leaking and discharging ing to elevate movements based upon their personal spites or ambitions, into the dignity of opposition to a great party and great principles, is too absurd to awaken other feelings than those of contempt.

The price fixed by the quartermaster at Fort Leavenworth was wholly inadequate and would have subjected the contractors to ruinous losses. All for common justice! Governor Floyd very wisely determined not to take the responsibility of deciding the case upon the statements of interested parties. A Scene on the Gallows-The Baltimore Sun says: We have already briefly mentioned that P. S. 1 00 Turley, formerly a clergyman, was executed on Friday week in Kanawha county, Va., for the murder of his 2 00 wife. On the gallows he made a speech, attributing the 1 00 commission of the crime to his intemperance. The Ka-1 00 nawha Star says :

After speaking he requested that "Jerusalem, my happy home" might be sung; he said that many pres-2 00 ent had sung it with him on more happy occasions. He 1 00 started the tune himself. While singing, he called his aged father on the platform, threw himself upon his neck, interrupted his singing only long enough to say 1 00 " farewell," and then continued to take the lead. His 4 00 mother, with his little daughter, came forward at his re-Brood Mare, 200 quest, and he shook hands with her, and took his little one in his arms, kissed it, and all without seeming to be 1 00 interrupted. So also with a brother. They all left the the brothers of his murdered wife. He had a smile on 2 00 his face most of the time. There were but few dry eyes

SHERIFFS AND TAXES .- Last Thursday, (Sept. 30th) 4 00 was the last day allowed by law to the various sheriffs 3 00 for settling their tax accounts with the Comptroller of State, that being the last day of the fiscal year of our State government. We believe that four or five sheriffs have failed to make their returns. We learn that 00 that there is a slight increase of revenue as compared with that of last year.-Standard.

One of our exchanges gets slightly excited, and piles on the "highfalutin" in this wise:

"A grain of carmine will tinge a gallon of water, so that in every drop the color will be perceptible; and a grain of musk will scent a room twenty years. Just 80, if a man cheat the printer-the stain will be forever visible on the minute atoms of his minute soul, and will 00 leave a scent of rascality about an individual strong 00 enough to make an honest man turn up his nose in disgust, and kick him out of his presence, if he can not get rid him any other way."

"Go way," said Muggins, "you can't stuff sich non-00 sense into me. Six feet in his boots! Bah!! no man as 1 00 ever lived stands more nor two feet in his boots, and no 00 use talking about it. You might as well tell me that a man has six heads in his hat.' A Quaker who was charged the exhorbitant sum

of seventeen dollars for a horse and gig for a short drive, 3 00 remarked—" Thou mistakest me. I do not wish to pur-00 chase thy establishment, but only to hire it."
